MERN Stack Ecommerce App using React Native
https://www.udemy.com/certificate/UC-f899c97f-65b0-4607-a400-05c12efd2850/

EXPERIENCE

WebiWork Technologies PVT LTD
Indore - India
Jan 2022 - Present

- Collaborated with cross-functional teams to develop and maintain app solutions.
- Conducted code reviews and implemented best practices for coding standards and optimization.
- Troubleshot and resolved technical issues, ensuring seamless application performance.

PROJECTS

1. Suhavi Audiobooks (Full stack)
Suhavi Studios produces Punjabi audiobooks to keep the language accessible and modern for the diaspora. Audiobooks enhance vocabulary and convenience, especially for those who speak but can't read Punjabi, and bridge script differences. They are eco-friendly and cost-effective for publishers, with Suhavi providing a digital platform for distribution.

- Admin Panel: For managing audiobooks.
- Author Portal: Allows authors to publish their books.
- Web Platform: Enables users to listen to and purchase audiobooks online.
- Mobile App: Mirrors web platform features for on-the-go accessibility

2. Go Apps
Go Apps is a mobile application designed to complement Shopify's e-commerce platform, addressing the need for a dedicated app for Shopify stores. The solution allows users to seamlessly manage their e-commerce activities on mobile devices, enhancing their shopping experience.

- Product Management: Enables users to browse products, view details, and add items to their cart directly from their mobile device.
- Integration with Shopify: Syncs with Shopify's backend to ensure a smooth and consistent experience between the website and mobile app.
- Cart Functionality: Provides a user-friendly interface for adding, reviewing, and modifying items in the shopping cart.

3. Easy Sprint (Backend)
Worked on Easy Sprint, a robust ticket management system designed to facilitate project organization and user collaboration. The system allows users to create and manage organizations, projects, and tasks, track user activities, and invite team members. My role involved developing key features and ensuring smooth functionality across the platform.

- Developed features for creating, organizing, and tracking projects and tasks.

2. Accurate Brahma Muhurta App
The Accurate Brahma Muhurta App provides a specialized feature allowing users to set alarms for Brahma Muhurta, the auspicious time of day per Vedic tradition. With its user-friendly interface and dependable alarm functionality, the app caters directly to those seeking to integrate sacred timings into their daily routines effortlessly.

- Clean Interface and Reliable Alarms: Ensures ease of use and accurate timing adjustments for users following Vedic traditions.

3. OnlyJewels Website
OnlyJewels.com offers a luxury magazine-style experience exploring curated gemstones and designer jewels, with both online and in-person appointments.

Admin Panel:
- Manages inventory, orders, customers, and content.
- Provides analytics and ensures security.

User Website:
- Luxury interface for browsing and buying curated gemstones and designer jewels.
- Features include search, filtering, wish lists, secure checkout.
- Allows account creation, order tracking, and showroom appointments.
