JITENDRA KUSHWAH

Senior Backend Developer | Node.js, Express, NestJS & Cloud APIs

Indore, MP, India • jitendrakushwahsingh@gmail.com • +91 9009355417 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Backend Software Engineer with ~5 years of progressive experience at WebiWork Technologies designing, building, and deploying production RESTful APIs and backend micro-services using Node.js, TypeScript, Express.js, and NestJS. Proven track record implementing background job queues with BullMQ and Redis (reducing latency from 8s to <150ms), database modeling and query optimization across MongoDB, PostgreSQL, and MySQL using Mongoose, Prisma, and TypeORM, and integrating cloud payment gateways (Stripe Connect, Razorpay) and AWS S3 media streaming. Skilled in writing clean, modular code with JWT auth, role-based access control (RBAC), and real-time WebSockets.

TECHNICAL SKILLS

Languages & Frameworks: Node.js, TypeScript, JavaScript (ES6+), Express.js, NestJS, RESTful APIs, MVC Architecture, Socket.io (WebSockets)

Databases & Caching: MongoDB (Mongoose), PostgreSQL, MySQL, Redis (In-Memory Caching & Distributed Job Queues), Prisma, TypeORM

Architecture & Middleware: BullMQ Worker Queues, Cron Schedulers, JWT Authentication, RBAC Authorization Guards, Bcrypt, Zod, Joi, Rate Limiting, CORS

Cloud, Tools & Payments: AWS S3 (Presigned URLs, Chunk Streaming), Stripe (Charges, Connect, Webhooks), Razorpay, FCM, Git, Postman, Linux, Docker

PROFESSIONAL EXPERIENCE

WebiWork Technologies Pvt. Ltd. — Indore, MP, India **January 2022 – Present (~5 Years)**

Career Progression: *Senior Backend Developer (Late 2024–Present) • Backend Developer (Early 2023–Late 2024) • Junior Backend Developer (Jan 2022–Early 2023)*

Senior Backend Developer

Late 2024 – Present

- **Suhavi Audiobooks Platform:** Engineered core audio streaming REST APIs in Node.js/Express with AWS S3 presigned URLs, byte-range chunk streaming for zero-buffering playback, and Redis response caching for fast catalog delivery.
- **AimQTest Evaluation Pipeline:** Built asynchronous BullMQ & Redis worker queue for cognitive assessment scoring, reducing exam submission latency from 8s to <150ms with Redis job deduplication and automated PDF generation.
- **AutoSpa Dealership B2B SaaS:** Developed multi-tenant NestJS backend with PostgreSQL and RBAC authorization guards; built BullMQ background workers for automated vehicle damage report exports and AWS S3 uploads.
- **ShareLlama Gear Search:** Developed REST APIs in Express.js and Prisma/PostgreSQL, adding geospatial distance filtering to query available rental gear near user coordinates.
- **Payments & Cloud Infrastructure:** Integrated Stripe and Razorpay webhook listeners to process transactions, manage subscriptions, trigger refunds, and generate automated invoice receipts.

Backend Developer

Early 2023 – Late 2024

- **LittleBigShed (P2P Rental Marketplace):** Built modular NestJS REST APIs, MySQL database schemas with TypeORM, and Stripe Connect escrow workflows with payment holds and capture webhooks.
- **Real-Time Messaging & Automation:** Implemented Socket.io WebSocket rooms for buyer-seller messaging with MySQL persistence; built NestJS cron schedulers to auto-expire bookings and send Nodemailer alerts.
- **VideoApp Subscription Backend:** Engineered video sharing and subscription backend in NestJS and PostgreSQL with TypeORM and Stripe recurring billing.

Junior Backend Developer

January 2022 – Early 2023

- **EasySprint & ShopifyECommerce:** Built NestJS REST APIs and MongoDB Mongoose collections for developer timesheet tracking; developed Express.js e-commerce APIs with JWT auth, bcrypt, and Joi validation.
- **Live Chat:** Implemented customer support live chat using Socket.io with room-based broadcast events.

KEY PROJECTS & ARCHITECTURE SUMMARY

Suhavi Audiobooks Platform — Streaming & Cloud Media *Node.js, Express, Next.js API Routes, AWS S3, Redis, Axios, JWT*

Engineered secure audio streaming endpoints using presigned AWS S3 URLs with byte-range chunk requests for smooth playback, multi-role JWT authentication (authors, listeners, admins), and Redis response caching for high-traffic book catalogs.

AimQTest — Asynchronous Exam Evaluation & Report Pipeline *Node.js, Express, MongoDB, Mongoose, BullMQ, Redis, AWS S3, Razorpay*

Designed high-volume test scoring queue with Redis job deduplication, reducing submission latency from 8s to <150ms while generating dynamic psychometric evaluation PDF reports with embedded charts and batch Excel exports.

LittleBigShed & AutoSpa — Marketplace & Dealership SaaS Backends *NestJS, PostgreSQL, MySQL, TypeORM, Stripe Connect, Socket.io, Cron*

Architected P2P rental platform with Stripe escrow authorization holds and live WebSocket chat, alongside multi-tenant dealership inspection SaaS with strict RBAC branch data isolation and BullMQ photo processing.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Software Engineering — Sri Aurobindo Institute of Technology, Indore, MP, India — **2015 – 2019**
